Career Objective

Highly motivated Information Technology student seeking a role as a Mobile Developer. Passionate about leveraging skills in Flutter, Dart, and Supabase to build dynamic and responsive applications. Blends a strong technical foundation in frontend development with a keen eye for visual design and storytelling cultivated through award-winning documentary photography.

Education

Asian College Dumaguete City Campus

Bachelor of Science in Information Technology
Expected Graduation: 2027

Skills

- **Technical Development:** Mobile Application Development, Flutter, Dart, Supabase (Backend, Real-time Data Broadcasting, State Management), Frontend Development, PHP, Responsive Web Design.
- **Photography & Design:** Street, Documentary, and Event Photography; High-resolution Composition; Curated Storytelling; Minimalist Visual Design; Logo Design & Graphic Iconography.
- **Soft Skills:** Organizational Communications, Project Conceptualization, Document Drafting, Team Collaboration.

Projects & Experience

"SUMPAY" Capstone Project

- Conceptualized and developed an Information Technology Capstone project focusing on mobile systems.
- Designed modern branding assets, including a logo featuring geometric network-node motifs.
- Implemented real-time broadcast data fetching and state management using Flutter, Dart, and a Supabase backend.

THE SALT LINE (Photography Project)

- Ongoing independent photography project exploring street and documentary narratives.

BaStaBay Camera Club

- Managed official correspondence and drafted organizational announcements on behalf of the leadership team.
- Participated in curated photowalks, capturing and evaluating candid street and documentary photography for publishing and contests.

Achievements

- Consistent Honor Student (Since 1st Year)
- First Place / Champion: Duma Arts Month Photo Competition (2026)
- Champion: Tales of the Street Category, Buglasan Photo Competition (2025)
- Finalist: SinagLarawan Photo Competition (2025)
